

Realize Your Dream

When I was a little girl, I believed that making a wish was enough to make dreams come true. Now that I'm older I have learned that dreams are realized by forming a strategy and then taking action. This is especially true when your dream is to create your own **Dream Backyard Experience**. More than ever we need a professional to help us formulate our ideas, which may include a pool and/or spa, landscape, hardscape, an outdoor kitchen, a fireplace and shade structure. We need professional designers like Michael and Tina Anderson, owners of Premier Pools and Spas in San Jose.

Michael Anderson has invested 35+ years in the swimming pool industry. Together, he and Tina are recognized nationally for their **Dream Backyard Experiences**, and also have been awarded several International Awards of Excellence, APSD. They credit their success to the partnerships they've made—first and most importantly with each other. Together they have raised 10 children; nine boys and one girl, three of which work with them in the family business.

Michael & Tina Anderson

Second, Michael and Tina chose to partner with Premier Pools & Spas over 10 years ago. Premier Pools and Spas is the **#1 Swimming Pool Builder in California**; the third largest swimming pool builder in the country; and was named **National Pool Builder of the Year** by Pool & Spa News. In business since 1988, Premier Pools has built over 22,000 pools.

Michael and Tina see each of their clients as partners in design and as a part of their swimming pool family. Together you create your **Dream Backyard Experience**. As Michael says: **"Your Dream Backyard Experience has extraordinary effect in**

raising your quality of life. We work with you to change the way you experience and enjoy your home. We're not just building pools and spas; we're helping you design an experience, where you can find joy with your family every day. We're supplying the means for a healthier lifestyle, stronger relationships within your family and friends, and a sense of community in your neighborhood. We're designing your Dream Backyard Experience that will create memories that will last your lifetime, as well as your children's."

Whether you have room for an Olympic size pool or only for a spa, Michael and Tina will help you identify the features that will best serve your family's needs and entertainment goals within your budget. **"A good design will maximize even the smallest space while making the most strategic use of the money you have to invest,"** Tina explains. **"A unique solution for a small yard is to vault /sink a freestanding spa. It's a great natural look all by itself, but it also allows you to unify the overall design.** Michael and Tina bring the same kind of unique solutions to swimming pool remodels, allowing you to rejuvenate your existing pool and to bring new vitality to your **Dream Backyard Experience**.

While Premier Pools excels at maximizing space and your improvement dollars, they will never do so by compromising quality. They got to be #1 in California and in the nation because they build superior products. Not only do they exceed city and county building codes, but they also build for energy efficiency, saving their clients thousands of dollars as well as creating ease of operation. As Michael says, **"Premier Pools delivers a top quality product, a highly personalized client experience and an unsurpassed user experience. We do that because we view our final product as life-enhancing. That means it must serve generations for generations."**

What Michael is expressing is Premier Pools' attentiveness to your motivation to invest in a **Dream Backyard Experience**. Who better, then, to help you set your goals for your project?

There is certainly no one who does a better job with strategy. Whether your budget requires a phased job, or you can build all at once, you can count on Premier Pools & Spas to plan the most logical and cost effective execution and to handle committed scheduling.

When you work with Premier Pools, the only action required from you is the initial phone call. They will walk beside you, providing everything you ever wished for, from concept to completion.

In terms of economy, there is no better time to invest in a backyard renovation. Always competitively priced, Premier Pools is able to offer special deals now because their suppliers are keeping prices low. But these deals won't last forever, so call Premier Pools, today at 408-740-5322 or visit www.premierpoolsandspas.com
